SUMMARY

Full-stack developer and Information Technology graduate from Swiss German University (**GPA 3.62**) with two internships building web and mobile applications using React, Node.js, React Native, and C#/.NET. Independently built and deployed a full-stack ordering platform with an admin dashboard (Next.js, TypeScript, Prisma, PostgreSQL) and a Roblox-based learning management system as my thesis. Looking for a junior developer role where I can build and ship features across the stack.

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern

Komune Studio Software House

03/2025 – 07/2025
Tangerang, Banten

- Developed and enhanced web application features for client projects using **React**, **TypeScript**, **JavaScript**, and **Tailwind CSS** on the frontend and **Node.js** on the backend
- Built admin dashboard features and integrated backend APIs with frontend interfaces for custom event-industry web systems
- Managed and queried **MySQL** databases (phpMyAdmin) to support application features
- Used **Git** for version control and collaborated with frontend and backend teammates to coordinate task ownership and keep development on schedule
- Completed assigned tasks independently, including research and data-entry work outside regular development

Full Stack Developer Intern

PT Accelist Lentera Indonesia

09/2024 – 01/2025
Tangerang, Banten

- Developed and enhanced mobile application features using **React Native** and **Expo** on the frontend and **C#** and **.NET** on the backend
- Built **REST API** endpoints and integrated them with the mobile frontend, including user profile, student management (with pagination), and mentor data features
- Implemented password reset and email verification logic using one-time codes
- Ported web application login functionality to the mobile app and supported Google Sign-In integration
- Tested APIs with **Swagger** and **Postman**, tested the app on an Android emulator, and helped other developers test the application
- Worked independently on assigned features and consulted teammates to resolve technical blockers

PROJECTS

EduVerse: Roblox Learning Management System (Thesis)
Roblox Studio, Lua

- Developed a learning management system inside Roblox with course management, content delivery, assessments, progress tracking, and a turn-based battle quiz system, using game-based learning to raise student engagement
- Ran a pilot study with 22 students using a pre/post-test design and paired t-test and Wilcoxon analysis, which showed statistically significant gains in learning motivation (p = 0.001, large effect) and engagement (p = 0.040, medium effect)
- Identified the battle quiz as the main driver of engagement, and documented design and technical limitations of building an LMS on Roblox with recommendations for future work

01/2026 – 05/2026

AI Budget Travel Planner 
Next.js, TypeScript, Prisma, PostgreSQL, Better Auth, Gemini API

- Built a full-stack trip planning app that generates day-by-day itineraries from category budgets (flights, stay, food, activities) and trip style, with live streaming of planning progress
- Integrated Gemini as the primary LLM with an automatic Groq fallback to handle upstream overload errors, and the Geoapify Places API for location discovery with a 7-day result cache
- Implemented email and Google authentication, saved trips, and place bookmarking, and deployed to production on Vercel with Neon PostgreSQL

09/2026

Chibi Burger Ordering Platform 
Next.js, TypeScript, Tailwind CSS, Prisma, PostgreSQL, Auth.js

- Built and deployed a full-stack ordering platform with a customer ordering flow and an admin dashboard
- Implemented authentication with Auth.js and a PostgreSQL database hosted on Neon, deployed on Vercel

07/2026

EDUCATION

Bachelor's Degree - Information Technology (Technopreneurship)
Swiss German University
GPA: 3.62

- Thesis: *Roblox-based Learning Management System examining student engagement.*

08/2022 – 09/2026
Tangerang, Banten

CERTIFICATES

Ethical Hacking Essentials (EHE)
EC-Council, 2024

Network Defense Essentials (NDE) v1
EC-Council, 2023

21st Century Employability Skills Program - Advanced
Wadhwani Foundation, 2024

SKILLS

Languages
TypeScript, JavaScript, C#, Python, Dart, Lua, SQL

Backend & Database
Node.js, .NET, REST APIs, Prisma, PostgreSQL, MySQL, Auth.js

Tools & Practices
Git/GitHub, GitHub Actions (CI/CD), Postman, Swagger, Vercel, Figma

Frontend
React, Next.js (App Router), Tailwind CSS, HTML, CSS, Framer Motion

Mobile
React Native, Expo, Flutter

LANGUAGES

- English - Fluent
- Indonesian - Native
